What Android and IOS Permissions required while using our mobile applications:

When IPFORSTARTUP app is installed on your phone, a list of permissions appears e.g. User Agreement. Since there is no option to customize those permissions, below is a description of the permissions that IPFORSTARTUP website portal requires and the data that IPFORSTARTUP shall access and use.

Android permissions:

Device & App history: We need your device permission to get information about your device, like OS (operating system) name, OS version, mobile network, hardware model, unique device identifier, preferred language, etc. Basis these inputs, we intend to optimize your booking and delivery of product and service you opt for on this website, use OS specific capabilities to drive great in-funnel experiences using components of device’s OS, etc.

Identity: This permission enables us to know about details of your account(s) on your mobile device. We use this info to auto-fill your email ID’s and provide a typing free in-funnel experience. It helps us map email ID’s to a particular user to give you the benefit of exclusive offers, wallet cash-backs, etc. It also allows facilitating your Facebook and Google+ login.

Location: This permission enables us to give you the benefit of location-specific deals and provide you a personalized in-funnel experience. When you launch IPFORSTARTUP Application to book an item on IPFORSTARTUP, we auto-detect your location so that our nearest logistic team in the preferred location of the request is auto-filled.

SMS: If you allow us to access your SMS, we read your SMS to auto fill or pre-populate 'OTP' while making a transaction and to validate your mobile number. This provides you a seamless transaction experience while placing a request and you don't need to move out of the app to read the SMS and then enter it in the app.

Contacts: If you allow us to access your contacts, it enables us to provide a lot of social features to you such as sharing your service reviews with your friends, inviting your friends to try our app, send across referral links to your friends, etc. We will also use this information to make recommendations for upcoming services. This information will be stored on our servers and synced from your phone.

Photo/ Media/ Files: The libraries in the app use these permissions to allow map data to be saved to your phone's external storage, like SD cards. By saving map data locally, your phone doesn't need to re-download the same map data every time you use the app.
